SUMMARY

Motivated Computer Science & Engineering graduate with strong hands-on experience in full-stack web development using Python, Django, FastAPI, JavaScript, and MySQL. Built and deployed database-driven web applications from the ground up, demonstrating a solid foundation in both front-end and back-end development. A fast learner with a problem-solving mindset, ready to bring fresh perspective, clean code, and genuine enthusiasm to a collaborative engineering team.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL
Web Technologies: HTML5, CSS3, Bootstrap
Frameworks & Libraries: Django, FastAPI (Fundamentals)
Databases: MySQL
Tools & Platforms: Git, GitHub, Visual Studio Code, XAMPP
Soft Skills: Problem Solving, Team Collaboration, Written & Verbal Communication

PROJECTS

MediTrack — Disease Status Management System | *Python, Django, MySQL, HTML, CSS, JavaScript*
– Architected and deployed a full-stack healthcare web application enabling clinical staff to manage patient disease records across multiple treatment stages.
– Engineered complete CRUD operations for patient profiles, disease status updates, and treatment history, reducing manual data-entry effort for end users.
– Integrated a Django REST backend with a MySQL relational database, achieving real-time data storage and retrieval with normalized schema design.
– Structured the project following MVC principles, improving code maintainability and establishing a foundation for future API expansion.

E-Commerce Web Application | *HTML, CSS, JavaScript, MySQL, XAMPP*
– Designed and built a responsive e-commerce platform featuring product catalog browsing, shopping cart management, and a simulated checkout workflow.
– Implemented dynamic cart operations (add, update, remove) using client-side JavaScript, delivering an interactive shopping experience without page reloads.
– Managed relational product and user data with MySQL via XAMPP, applying normalization techniques to ensure data integrity across transactions.
– Delivered a mobile-friendly UI using Bootstrap, improving usability across screen sizes and demonstrating front-end development best practices.

EDUCATION

Saveetha School of Engineering <i>B.Tech in Computer Science & Engineering</i> – CGPA: 8.2 / 10	Chennai, Tamil Nadu 2022 – 2026
Narayana Junior College <i>Intermediate — Class XII (MPC)</i> – Aggregate: 81%	Kadapa, Andhra Pradesh Graduated 2022
AP Model School <i>Secondary School Certificate (SSC) — Class X</i> – Aggregate: 96%	Khajipet, Andhra Pradesh Graduated 2020

CERTIFICATIONS

Technical English Communication | *NPTEL*
Introduction to Internet of Things (IoT) | *NPTEL*

AREAS OF INTEREST

Proficient in Full-Stack Web Development, REST API Design, and AI-Powered Applications, with a strong willingness to learn and adapt across any technology stack or domain.
